@VisitMalta

Dear Stakeholder,

Thank you for your interest in FELTOM and its member schools. To help you on your journey of discovery of our Federation, I am providing you below with a synopsis of who we are, our mission and objectives.

FELTOM, the Federation of English Language Teaching Organisations in Malta, was established in 1989 by a number of Maltese ELT schools, which recognised the value of forming an association and which collaborated in the setting up of the Federation at a time when the teaching of English as a foreign language was still in its infancy. FELTOM is a self-regulating, non-profit organisation dedicated to promoting professionalism within the ELT industry.

Mission Statement

FELTOM's objectives are:

- to develop cooperation amongst licensed English Language Schools
- to set, improve, and ensure the maintenance of standards in, and direct the development of, all aspects and services which constitute the requisites of an English language stay in Malta
- to promote Malta as an ELT destination for English language stays of quality.

Since its inception, FELTOM has evolved along with the ever-changing needs of the industry, and presently, its three main pillars are

- Advocacy
- Accreditation
- Marketing and Promotion

Advocacy

As a Federation, FELTOM is constantly striving for the development of the local ELT industry and was instrumental in the introduction of industry specific legislation regulating English Language Teaching. This was introduced in 2015 putting Malta at the forefront of such legislation globally.

Over the years it has also established itself as a valid lobby group, whose main focus, then and now, is to establish Malta as a destination of excellence for English Language learning.

FELTOM continues to advocate the development of this niche sector in Malta by working closely with local legislators and government authorities, international agents and other industry stakeholders.

Accreditation

FELTOM proudly represents 16 well established, fully accredited ELT schools across Malta and Gozo. To ensure

Caroline Tissot
FELTOM CEO

that its member schools offer quality educational experiences, the Federation introduced the FELTOM Accreditation scheme back in 2006. An independent Accreditation Council was subsequently set up, which is chaired by Mr. Jason Aquilina, who will be elaborating further on FELTOM's rigorous accreditation process in the relevant section of this brochure.

Marketing and Promotion

To reach its goals, the Federation maintains a strong presence amongst relevant stakeholders, and participates in some of the most prominent international marketing fairs and workshops. The professional approach adopted by the Federation over the years, and its continued presence on the international platform, has led to FELTOM member schools being held in high regard on the global ELT platform.

FELTOM is also honoured to welcome the international ELT community to Malta during its annual workshop which, while being a great networking event, gives the Federation the opportunity to showcase our beautiful islands.

Through its active communications strategy, FELTOM maintains an active media presence by collaborating with leading local and international industry publications.

The ELT industry in Malta offers a vibrant all-encompassing experience, and I encourage you to scroll through our brochure to learn more about our quality member schools and the exceptional educational experiences they offer. FELTOM looks forward to welcoming all stakeholders to Malta in the very near future!

Sincerely

Caroline

The FELTOM Accreditation Scheme

As a self-regulating national body, FELTOM has established a set of codes of conduct and standards of service as a mandatory requirement for its members. These are embodied by the FELTOM Accreditation Scheme which was first implemented in 2006. The scheme is administered by the Accreditation Council, a body separate to the other organisational structures within FELTOM, composed of two independent persons, as well as the FELTOM CEO and the chairperson of the FELTOM Board representing the member organisations. This council is responsible to appoint competent and independent inspectors to carry out inspection activities and also decides on the outcome of those inspections.

Becoming an accredited FELTOM member involves a rigorous application process which includes submission of formalised policies and procedures which go through a desk review. This is complemented by a visit by one of the FELTOM inspectors to carry out an audit. This is held during the peak summer period. Full inspections are held once every three years, with review visits held in the interim.

FELTOM ACCREDITATION SCHEME LIFE CYCLE

Inspectors visit all premises held by the organisation and not just the main school complex. They have the opportunity to witness classroom activities, interview key personnel, check staff qualifications and evaluate the effectiveness of health and safety risk assessments as well as the correct implementation of policies on handling complaints and customer feedback, amongst many other requirements. In fact, the accreditation process establishes quality standards in six main areas, namely:

1. Leadership and Management

The management of the FELTOM member organisation shall operate to the benefit of its students and professional staff in accordance with legal and regulatory compliance. The management will lead the FELTOM member organisation in its quest for continuous quality improvement.

2. Learning and Teaching

Academic staff members of the FELTOM member organisation shall have the appropriate knowledge, skills and competencies to deliver courses and assess students effectively in order to optimise outcomes for students.

3. Student Welfare

The FELTOM member organisation shall meet the needs of the students for security, pastoral care, information and leisure activities.

4. Premises and Facilities

The learning resources and environment shall support and enhance students learning and offer an appropriate professional environment for the teaching staff.

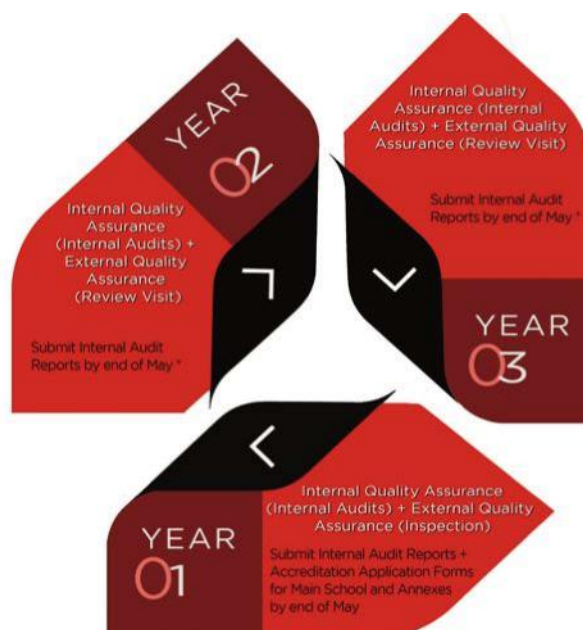

5. Recruitment of Learners

The application and enrolment process shall be clear and easy to follow for students and agents. Promotional material shall be ethical, accurate and consistent.

6. Care of Minors

The FELTOM member organisation shall have organisational structures that effectively support the provision of services to minor students, with particular emphasis on their welfare and safety.

The accreditation process allows members to strive to adhere to and continually improve standards and better understand and fulfil the needs of their learners. By successfully going through this process, the FELTOM member, as an accredited organisation, will manifest a commitment to meeting and maintaining quality standards through the use of the FELTOM Accreditation mark, a globally recognised mark of excellence in the ELT sector.

GOVERNMENT OF MALTA
MINISTRY FOR EDUCATION,
SPORT, YOUTH, RESEARCH
AND INNOVATION

The mission of the ELT Council for ELT Schools is to foster the ELT Profession and Industry in all its various aspects.

Regulated by means of a legal notice(221 of 2015), the ELT industry in Malta handles over 80,000 students per year arriving more than 60 different countries. ELT students study in any one of the 35 ELT Schools licensed by the ELT Council, whose aim is to safeguard Malta's reputation as a quality ELT destination.

The ELT Council forms part of the Ministry for Education, Sport, Research and Innovation in Malta. We pride ourselves to offer a value added experience to all our students, we ensure that students choosing Malta to learn English benefit from a full immersion experience through which they can enjoy their stay in Malta while learning the language in an English speaking country, attending lessons delivered by qualified teachers in licensed ELT schools. All teachers in Malta must be in possession of an ELT permit to teach English and cpd is also mandatory by law.

The ELT Council's main duties include licensing ELT Schools, issuing ELT teaching permits as well as regulating other academic and non-academic aspects of a student's stay. As a regulator, we ensure that all ELT Schools in Malta comply with the legal notice and policies, particularly

focusing on academic and teaching standards, health and safety on premises and wellbeing of minors. The ELT Council regularly visits schools, providing an opportunity for schools to take stock of their systems and make improvements wherever necessary. This will ultimately lead to a top-notch product for future ELT students.

The ELT Council's largest CPD event of the year is the national ELT Malta Conference. It is an annual event attended by over 300 ELT professionals, aimed to foster a culture of continuous professional development. The conference opens with a ceremony during which the 'Inspiring ELT Professional Award' winner is announced. The award is given to an ELT professional whose contribution is considered outstanding by inspiring their peers and motivating their student. Another award of an outstanding career in ELT is given during the annual conference.

All these measures ensure that students who choose to study English in Malta benefit from a superlative learning experience combined with the unique culture and heritage the country has to offer.

English Language Academy (ELA) was established in 1988 and is one of the founding members of FELTOM (Federation of English Language Teaching Organisations Malta).

Our school is located in a quiet corner of Gzira, minutes away from the bustling, metropolitan town of Sliema, very much considered to be the 'pulse' of Malta! It is close to the sea, restaurants and shops and just a bus or ferry ride to the UNESCO capital city of Valletta.

Our students benefit from tuition courses, accommodation services, a full leisure programme, airport transfers and assistance from our school representatives.

The school offers free Wi-Fi facilities to all ELA students to ensure they can share their language learning experience with their family and friends.

We are open all year round from Monday to Friday except on public holidays. Any lessons that are missed due to a public holiday are made up for on the remaining days of that week!

What sets ELA apart is that we are a medium-sized school (maximum capacity of 300 students) but we operate like a 'small' school. One of our core beliefs is that our students are not just customers, they're part of the family. Our 'family' atmosphere is extended to students as young as four and with no upper age limit; we've even had three generations of the same family taking lessons at the same time! This focus on holistic customer care enables us to maintain our reputation as a school that offers that special, personal service and is the reason we have some students returning to us for their fifth and sixth visit.

When placing students in class, we keep our groups small and international, ensuring that everyone receives attention from their teacher and that they get to meet people from all over the world.

We offer a large variety of courses for all ages including General English, Business English and Exam Preparation as well as Private One-To-One courses in a wide variety of different subjects.

Our classes consist of a maximum of eight students in winter and ten in summer, except for Business and Examination courses where the maximum is six students all year round. Students are placed in classes according to their level, age and nationality.

We also cater for large groups of students of any age that require an all-inclusive package of Course, Accommodation and Activities.

As the only official TOEFL iBT Exam Centre in Malta, we are a school that has always had a good reputation for our international exam preparation courses. We have a number of teachers that specialise in these courses so we offer TOEFL, IELTS, and Cambridge English Exam Preparation Courses of the highest quality. We are also a school with a long history of teacher-training. We are committed to offering a broad and varied amount of in-house training to our own teachers, ensuring that they are fully equipped to provide excellent lessons. Additionally, we offer Erasmus+ Teacher Training Courses throughout the year, with teachers coming from all over Europe to make sure they're on the cutting edge of academic standards. We also run a number of TEFL Certificate Courses each year, helping people begin their journey into English Language Teaching.

Our Junior Summer Programme classes have a maximum of 12 students and we try to keep these teen classes as international and as varied as possible, so that our young students get to have an unforgettable international adventure. We send happy teenagers back home with all the skills and abilities they need to be successful communicators in English.
